G. B. O'Connor Gives Lucid Explanation of Vicking Gas Well Contracts

The fate of mankind and the fate of free countries is in British hands once more. In these words did Dr. Louis Schlusser of Berne, Switzerland, address the members of the Edmonton Industrial association at their noon-day luncheon on Thursday.

Dr. Schlusser is on a tour through Canada and spoke a few words to the members of the association following an applause of welcome extended to him and to A. L. Bayle, mayor of Athabasca. Dr. Schlusser spoke in rather broken English but made a very impressive speech and thrilled his hearers.

"I have been surprised," he continued, "in my travels through Canada, especially through western Canada, at the wonderful development and prosperity of the country, and I have noted how strong the feeling is for the British empire and the strong feeling to stick to Britain to the end.

"We have read that the British empire was more an idea than a reality, but we have come to believe that Great Britain is the decisive factor in this first question.

An unexpected incident on the program was the saying of farewell to J. A. Roth, vice-president of the association, who leaves shortly for the east and south.

Mr. Roth has been the chief main-spring, and on the "On-to-Toronto" trip, he was the main man in it, and his position will be hard to fill. The association drank a toast to Mr. Roth, sang "For He's a Jolly Good Fellow," and gave three rousing cheers.

The matter was dealt with at some length and many questions were put to the speaker and answered. James Ramsey complimented Mr. O'Connor in the struggle made in the drawing and made clear and explained the matter in detail.

Musical selections were provided by David Wild whose singing of "There's a Land," was much appreciated. A concert solo by A. L. Bayle, mayor of Athabasca, was wholly unwarranted, but was put right by J. E. Brown, manager for Revillon's wholesale, who stated credit had not been withdrawn.

James Ramsey thought the circular, which had been circulated about the banks extending credit but that the president Magrath brought the matter to a close by stating that the banks were not living up to it.

The general expectation is that the banks will be taken up more fully at next week's meeting.

James Ramsey gave a splendid address on "The aim and work of our association." He said, in part: "There has never been a period in history when, as today, great world events are closer to the daily lives of the practical business and the hopes, ambitions and fears of people in all walks. There is scarcely a business throughout the country that does not need immediate readjustment. It may not be radical in most cases, but it is enough in many instances to make the difference between profit and loss, between success and failure."

"The general expectation is that the war, into which the whole of Europe and our own Canada has been plunging unexpectedly, will be short, but there is no clear-cut line of reasoning leading to that conclusion at this time. We think, however, that additional light will be thrown upon this vital question by the events of the next few weeks."

"At this time, as at no other time previously, it is necessary—it is imperative—that our business men should be alert and should think quickly. It is equally important not to be led into false moves. Each man must analyze his own business, make up his mind whether he will gain benefit or suffer reverse, and take steps at once to meet the situation.

"I feel that we have every reason to be optimistic as to the effect of the war upon Canadian agriculture and the industries which cater largely to agricultural interests. Banking conditions are sound. Our craft on the financial seas were already steering cautiously and shortened sail when the war started."

"The European war, in which Canada is destined to play an important part, has brought forcibly to the minds of many people the fact that cities alone do not make a nation. The return to the land movement is stronger today than ever. We see it right here in Edmonton, in the vicinity of which vast tracts of land are being opened up to the city. Our work has met with success, probably larger than could be reasonably expected in the short period of seven months."

"I permit me to draw your attention to a few of the other things we have accomplished since the beginning of the year: The enactment of a fraudulent advertising law—an amendment to Canada's criminal code—in which we, as originators of the movement were supported by advertising clubs, boards of trade and commercial organizations throughout the dominion. This resulted in a continuous publicity and won for us the most favorable commendation of the highest officials of the world."

"The Toronto excursion in June—We distributed 10,000 souvenirs and ten thousand booklets, descriptive of Edmonton and central Alberta and came into personal contact with thousands of prospective settlers. Since then we have had hundreds of letters from people in the middle-western and eastern states and provinces, asking for additional information. We have also directed several hundred homeseekers to lands in the immediate vicinity of Edmonton and other parts of this district."

"Advertising—censorship—The committee of our Ad club section has camped on the trail of the advertising fabric and by turning down his propositions and otherwise discouraging his efforts we have saved many thousands of dollars for our merchants."

"Our weekly meetings—if we have not accomplished another thing during the year, I firmly believe that our luncheons have had the effect of bringing to our people closer together. We understand each other better today than ever before, and our business and social relations are upon a more substantial basis. Moreover, I feel confident that we are united as one man to make this a bigger and better Edmonton."

Superb Confidence of French Troops and British Pluck Assures Victory.

GERMANS SWARM COUNTRY LIKE A VAST ANT HEAP

Keeping Men Together Under Circumstances New in History of Warfare.

London, Sept. 3.—Phillips Gibbs wires the London Chronicle from France:

"I have seen the superb confidence of French regiments rushing up to support their right wing and the magnificent confidence of the men, who, after the horrors of the battlefield every day since Saturday, with many previous fights and with the full consciousness that they are always retreating, still say: 'We shall win; we are leading the enemy to his destruction.'"

"I say that this spirit must win in the end. It is impossible that it should be beaten in the long run, and the splendor of the French courage in the face of what looks like defeat, is equalled, at least, by the calm and dogged assurance of our English troops. They have repeated the same words to me over and over again, these wounded men, these outposts at points of peril, these battalions who go marching on to another fight without sleep, without rest, knowing for the day they have to meet."

"We are all right; you can call it a retreat if you like but we are retreating in good order and keeping that way."

"They have retreated before a million of men swarming across the country like a vast ant heap with a valor that has gained for the English and French glory."

"Such a thing has never been done before in the history of warfare. The frightful difficulty of keeping an army together in such circumstances."

FEELING THAT GERMAN ATTACK WEARING OUT; CONFIDENCE PREVAILS

London, Sept. 3. (9:52 a.m.)—In spite of the fact that the French capital has been removed to Bordeaux and that the German army of the west is within 20 miles of the outer fortifications of Paris, a strange air of confidence prevails today among the allies. The general feeling seems to be that the German attack is wearing itself out in hammering away at the allies lines, which give, but do not break.

JAPS MAKING PROGRESS; STATED 15,000 TROOPS LANDED AT LUNG KOW

Chee Poo, China, Sept. 3. (5:30 p.m.)—Japan landed 1,500 additional men at Lung Kow today. Of these forces 10,000 are marines, the other being soldiers.

Lung Kow is a new Chinese port situated 100 miles north of Tsing Tau, in Kiao Chiao.

Between 10,000 and 15,000 Japanese troops had been landed at Lung Kow previous to the telegraph line out of Lung Kow.

FLASH—Petrograd, Sept. 3.—The surrender of Lemberg, capital of Austrian Galicia, is announced by Minister of War Sukhomlinoff, Rome, Sept. 3.—(8:40 a.m., via Paris)—The Russian embassy has been notified that the Austrians were overwhelmed in the defeat near Lemberg losing more than 100,000 men and 50 cannon.

Signal Victory is Expected.

London, Sept. 3.—The St. Petersburg correspondent of the Post sends the following on the operations on the Russian front:

"Russia is scoring success after success against the Austrians and is momentarily expecting news of a signal victory."

"The commander-in-chief on the Austrian front apparently plans to drive in strongly with one army from the east, starting from the Russian provinces adjoining Roumania and in the meantime merely aims to restrain the Austrian advances into the Polish provinces, thus keeping up all along the line of 200 miles."

When the Austrians finally realized these plans they attempted to turn the Russian left flank near Halle, near the junction of the Gnilnir river with the Dniester and a sanguinary fight took place there two days ago. The Austrians were signally defeated, losing 3,000 killed and many prisoners, including one general, 32 guns, a standard and quantities of supplies. Apparently the progress of the southern Russian army from Podolia in Galicia has been a series of fights on an increasing scale until a third victory, known as the Fowl Lipa was reached. The fight for the purpose of the valley of the Fowl Lipa was severe. The Austrians had realized the strength of the Russians and had strongly fortified a naturally formidable position. This was carried after an obstinate fight. The Austrian force, a whole army corps, lost about half its strength.

"These actions occurred on the Russian left, their right still being in Russian territory. It is evident that all the actions were part of a concerted movement with the surrounding of Lemberg as its objective, thus dealing a death blow to the Austrian defence."

Army Will Destroy Itself.

London, Sept. 3.—The Chronicle's correspondent at the front writing from an unnamed town in the department of Somme Tuesday says:

"Superiority of the British artillery coupled with the pluck of the British infantry is rapidly telling on the German attackers. A few more days such as Sunday and Monday and the German army invading northern France will have destroyed itself completely."

"No army that ever existed could endure and survive the terrible losses sustained by the Germans in the last few days. Whole divisions of infantry have been blotted out and shattered and the German ranks are beginning to show demoralization."

"In the latest assault the Germans manifested unmistakable signs of instability. They were seen to waver, and frequently to break and flee in confusion. As a result of this prolonged battle the German line has advanced a few miles but has not gained any marked or decided advantage."

Rome (via Paris) Sept. 3.—The Russian embassy here has received an official report from Petrograd setting forth that Russian troops are triumphantly marching on Lemberg, repulsing the Austrians all along the line. The fighting has been on a gigantic scale, 800,000 Russians being engaged against 600,000 Austrians. If all indications do not fail, the report from the Russian capital continues, the Russians will be definitely victorious, and as a result the roads to Vienna and Berlin will be open to the Russian army.

Official Story of Victory.

London, Sept. 3.—(10:15 a.m.)—In a despatch from Petrograd dated yesterday the correspondent of the Times quotes the message of Grand Duke Nicholas to the emperor on the Russian victory in Galicia as follows:

"I am happy to gladden your majesty with news of the victory won by the army of General Ruzsky. After seven days of uninterrupted fighting the Austrians are retreating in complete disorder. They are running away and abandoning their guns, rifles, artillery, picks and baggage trains."

"Prior to this decisive battle, General Ruzsky's army captured, in the course of seven days, 24 guns, a multitude of fire arms and a great number of machine guns."

No Official News.

London, Sept. 3.—The battle to decide whether history will repeat itself in a second siege of Paris is still in progress according to the latest official announcement here.

Future military historians will write volumes about the details of this battle but all the British public know progress along the whole line of battle.

To this the French official communication adds the fact that all allied forces have been taken back toward the east to avoid an action which might have been decided under unfavorable conditions. How far and to

what line the allies have gone is unknown. There can be no revelation of military secrets, nothing which a patriotic censor could criticize in stating these facts, because the German army which is engaged with the allies knows practically where their first line is drawn and the purpose of the censorship is only to suppress facts which might enlighten the enemy.

First Word of Battle.

The brief official bulletin of last night is the first word the British have received from their government concerning the present battle. The last previous bulletin was Field Marshall Kitchener's statement, issued Sunday night, throwing a welcome light on the previous four days' battle which ended Saturday and was reflected in the discredit credit on the German side and the morale of the British army.

THREE MILLION MEN UNDER ARMS FOR THE DEFENCE OF PARIS; ALL ARE CONFIDENT

German Advance is Described as Amazing—Result of Battle Now Raging is Not Known, But Line of Allies Said to be Still Intact—British People Continue to Accept with Stoicism Lack of News Concerning Army—Tentons Employing all Their Forces in an Enveloping Movement Against Left Wing of Allied Troops.

Line is Still Intact.

London, Sept. 3.—The Daily News correspondent wiring from Courmayeur-En-Bray, a small town near Rouen, says: "The German advance is amazing. A great battle is raging, with what result I know not, but I do know that the French and British armies are intact and still confident of ultimate success."

"Incredible as it seems the tremendous masses of men that the Germans have hurled at the allies have not overwhelmed them. It seems that while the Germans have the weight the allies crtainly have the wit and science and hence, with reinforcements, will eventually win. "General Pau had fine success but in the center and left center the allies were not so successful, being obliged to retire. As a result of Sunday's battle the Germans now occupy (censored out)."

Germans Checked on Right.

London, Sept. 3.—(11:40 a.m.)—The British people continue to accept with stoicism the lack of news concerning operations of the British army on the continent. The Daily News has repeatedly assured the public that all news consistent with the nation's interests would be given out, and the people are accepting that assurance.

The French official reports throw further light on the operations than those of the British. French reports say that action on the right of the northern wing has resulted in checking the Germans for a time. The inference plainly is that the Germans are employing all their forces in an enveloping movement against the allies' left wing. That that part of the allied army is retreating to the south and west indicates that the Germans have not yet outflanked them.

Reports Are Not Believed.

Apparently the Germans have abandoned the west of Belgium to pour all their forces toward the road for Paris. Reports that they are preparing to attack Antwerp are not believed here because there seems to be no dominating strategic reason for such a move. Military experts agree that the Germans are unlikely to make more than a screening body to prevent a serious Belgian sortie against their line of communication.

The occupation of Brussels probably was a demonstration for its moral effect, but an assault on Antwerp, it is considered, would be a side issue with so little effect upon the main plan of campaign that it would be a useless expenditure of men and energy. There may be a strong method in the allies' policy of gradual retreat and compelling the Germans to make repeated costly attacks while the allies keep a compact front before their lines of defense.

Confident of Result.

Three million Frenchmen are under arms to defend Paris. They still have confidence in the ultimate result of the war.

The list of killed and wounded and missing from the crack regiments which were engaged in the four battles of last week brings mourning to many noble and aristocratic homes. This, however, is the price of war, which the country appears willing to pay. The Prince of Wales found for the relief of suffering is now over a million. Recruiting in Great Britain has received an impetus from the events of the past fortnight.

AUSTRIAN LOSSES VERY HEAVY; WHOLE REGIMENT IS REPORTED MISSING

London, Sept. 3.—A despatch to the Telegraph from Copenhagen says that the Austrian list of losses suffered in the war are printed in the German press. Commenting on it the statement is made that the losses are very heavy and one instance is given where a whole infantry regiment which had been stationed at Zabern, is lost.

The forty-third Prussian infantry regiment it appears, also suffered very heavily, while the wounded were named in General Hoffgarten of the 9th infantry brigade and his adjutant. Both are seriously wounded. The Mecklenburg grenadiers have sustained important losses and it seems, says the Telegraph despatch, that more than 20,000 Mecklenburg troops have been lost.

JAPANESE OCCUPY SEVEN ISLANDS NEAR KAIO CHAU

BALAKLAVA CHARGE IS AGAIN EMULATED BY NINTH LANCERS

Under Hall of Melinite and Lyddite, Charge German Guns, Silencing Them.

FEW GOT BACK TO LINES OWING TO DEADLY FIRE

Teutons Machine Guns Said to Be Terrible Effective in All Engagements.

London, Sept. 3.—(2:40 a.m.)—The Daily Mail's correspondent behind the British lines describes the charge of the Ninth lancers, at an unnamed spot during the recent series of tactical retreats, as a second Balaklava. He says:

"Terrible havoc has been caused in our ranks by shells from a battery of eleven German guns posted inside a forest near the British front. It seemed impossible silence until the Ninth lancers made their attempt, riding straight at the guns, and charging under a hail of melinite and lyddite."

"There had not been able to get reliable figures as to the distance they rode, but they reached their goal. Nothing could stop them. They reached the guns, killed the gunners and put the guns out of action. Then they rode back. On their return they fell in greater numbers than at the attack of other German batteries posted at various points around the valley."

"Notable charges were made at (censored) on Wednesday last. Several British infantry regiments occupied an exposed position around which the Germans gradually crept, drawing the noise closer and closer."

"Britishers decided to cut their way through the cordon. So the men went at it, yelling and shouting, and got through, although the German artillery mowed them down frightfully."

"The German machine guns have been tremendously effective in all engagements thus far. Men who saw the South African war say the hottest fighting there was child's play compared with what the British troops have undergone since their arrival in France. So far as I can learn this war the Germans have lost 26 of the guns."

"Dogs are no longer permitted on the streets of Philadelphia."

German Casualty Lists Appal in Their Extent—Cover Six Official Pages.

The Hague, Sept. 3.—(Despatch to the London Express delayed): German casualty lists which have reached here are appalling in their extent. Published under authority of the German general staff, they occupy nearly six full pages of the official Reichsanzeiger.

No attempt is made to gloss over the terrible extent of the losses which have befallen the German army, nor is any comment made on the fact that men reported killed or missing outnumbered those who were actually wounded.

Travelers who have just arrived here from Berlin inform me that half the city is draped in black.

Tokio, Sept. 3.—The Chinese minister of Japan yesterday made emphatic denial of the report that he had protested to the Japanese foreign office concerning Japanese military movements in China directed against the German leased territory of Kiao Chiao. A SOLDIER OF THE KING.

Despatches from the battlefields of Europe say that the British troops are the best fighters of the armies. Tommy Atkins is proving daily that he is made of the same stuff as the heroes who fought at Balaklava, Inkerman and Waterloo.

ALLIES' PREPARATIONS FOR DEFENSIVE FIGHT CAUSING CONFIDENCE

London, Sept. 3.—Several persons who reached Paris yesterday from northern towns, says a Paris despatch to the Reuters Telegram company, declaring that the Allies were much more confident of their success than they were when they saw on the way. No Germans were seen and the allies' preparations for a defensive fight filled them with confidence.

Burning for Revenge, Fresh Russian Millions Advance to Support Defeated Army

Reverse a Bad Blow, But Its Significance Only Temporary, Says Military Expert—Great Successes of Muscovites in Galicia Much More Important Than Setback—Great Regret at Death of Gallant General Samsonoff.

London, Sept. 3.—"The news of a reverse to something like a couple of Russian army corps in East Prussia," writes a military expert, "did not surprise me, as I was prepared for some incidental defeats of the Russian advance troops. It must be admitted the defeat of two army corps is a hard blow at the first Russian army, but its tactical significance is quite temporary in its nature."

"If we analyze the meaning of the first blow the Russian army has received from the German defenders, we look at it with coolness from a strategic point of view we will see that this partial victory of the Germans is due to their natural effort to concentrate all their available force to stop the advance of the invaders. At the same time the Russian force, with its course of rapid marches, has been striking so hard that the German army, engaged as it is on two huge fronts."

"Further, fresh millions from Russia would support the German advance guards and every man's heart is there, on fire for revenge and with the resolution to avenge the lives of their slain comrades. One feature that makes the Russian defeat particularly regrettable is that the loss of such commanders as General Samsonoff, Martos and Petrich, and death of General Samsonoff especially is a heavy loss. He was a most noble cavalry general, highly equipped with expert teaching. Every body admired this military hero, and it was counted a great honor to be attached to his corps."

"The loss of three generals and many officers from the general staff proves that the Russian officers are fighting the Germans with the greatest gallantry and that the Russian general staff is really guiding the operations of the army, which, in the Russo-Japanese war was not always believed to be the case."

"The great Russian successes in Galicia from a strategic point of view, is more important than the temporary defeat of the first Russian army in east Prussia because the defeat of the main Russian army is a strategic defeat and is a big event, important to the campaign. While the defeat in east Prussia is an injury which can be repaired."

RAILWAY MAGNATE LOOKS ON SUNLIT SIDE OF THE WAR

West Not Borrowing Too Much But Producing Only One-Hundredth Enough.

Sir Donald Mann, construction camp foreman, railway and engineering contractor, railway magnate and foreman, generally and vice-president of the Canadian Railway Association, says that the European war is the opportunity for the Canadian farmer. Sir Donald was in Edmonton for a few hours last evening, on his way from Vancouver, where he was inspecting the Canadian Northern railway to the east, his car being attached to the Winnipeg express leaving the city at 10:45.

If the canny Scotch-Canadian railway vice-president is right in his present view of things commercial, as he always has been, the farmers of western Canada should all wait for one more crop to grow; provided, of course, that they take Sir Donald's advice and sow seed in every field, little and big, that they have access to."

"The great Russian successes in Galicia from a strategic point of view, is more important than the temporary defeat of the first Russian army in east Prussia because the defeat of the main Russian army is a strategic defeat and is a big event, important to the campaign. While the defeat in east Prussia is an injury which can be repaired."

RAILWAY MAGNATE LOOKS ON SUNLIT SIDE OF THE WAR

Sir Donald Mann, construction camp foreman, railway and engineering contractor, railway magnate and foreman, generally and vice-president of the Canadian Railway Association, says that the European war is the opportunity for the Canadian farmer. Sir Donald was in Edmonton for a few hours last evening, on his way from Vancouver, where he was inspecting the Canadian Northern railway to the east, his car being attached to the Winnipeg express leaving the city at 10:45.

If the canny Scotch-Canadian railway vice-president is right in his present view of things commercial, as he always has been, the farmers of western Canada should all wait for one more crop to grow; provided, of course, that they take Sir Donald's advice and sow seed in every field, little and big, that they have access to."

CITY HALL NOTES

At the regular tri-weekly meeting of the city council on Wednesday afternoon, it was decided to send out notices of a special meeting of the city council on Friday afternoon at 3 o'clock. The meeting is called for the purpose of attending to the offer of D. J. McArthur to purchase the St. Albert tract from Alberta avenue to the railway yards, one mile northwest. Other regular business will also be attended to at this meeting.

The estimated cost of the St. Albert tract will be between \$7,000 and \$10,000. The street will be paved with an 18-foot strip, the cost to bear 20 per cent of the cost, amounting to about \$1,000, and the McArthur company the balance, and taking city securities as security. It was stated by the mayor that at the present time the undertaking of such an amount of paving means much to the labor men, and also leads to other work that will mean a great deal to the city.

A delegation composed of the mayor and residents of the village of Beverley, east of the city, waited on the commission board for the purpose of securing information as to the steps to be taken, in conjunction with the city, for the installation of a lighting and telephone system. When the debentures for a considerable amount had been raised, which also allowed for the building of a city hall and fire hall combined to cost 10,000. This will be gone on with, but facts as to the number of telephones and the amount of power to be used must first be gathered, before definite information can be given from the city.

With the idea in view of curtailing all expense in the line of construction work in the city for the present, Deputy Commissioner of Finance Richard-Jones was instructed to secure information from all departments as to what work could be left undone, thus curtailing much indebtedness and the necessity of selling more debentures. It was intimated that the amount of construction that might be left undone, contrary to previous plans, would amount to a very great deal.

The delegation representing the residents on Syndicate avenue, between St. George and Morris streets, are to be informed as to what steps the city has taken in regard to reimbursing them for the cost of the street widening for the past two years. It was stated that this particular block on Syndicate avenue has never been paved, although the property owners thereon have been paying the assessment for a paved street.

J. J. Hyndman, the new judge at the supreme court, ascended the bench for the first time on Wednesday, and was called to hear the injunction case of the tenant-German Brewery. As a this such an occasion is attended by a certain amount of formality and this was the case yesterday. When after Mr. Hyndman had subscribed to the oath of office, he was heartily congratulated by City Solicitor Brown on behalf of the members of the bar. Mr. Brown declared that the bar felt honored that the fact, training and dignity of a new incumbent would soon establish most cordial relations between him and the members of the bar. The justice Hyndman replied that he felt the great responsibility he was assuming in the office and that he would always endeavor to merit the confidence of those with whom he came in contact.

attention of Cardinal Rampolla, later secretary of state for Pope XIII. When Cardinal Rampolla was made nuncio to Madrid, he took Monsignor Della Chiesa with him as secretary of the Nunciature. On Cardinal Rampolla's return to Rome to become secretary of state for the Vatican, Monsignor Della Chiesa entered the secretariat of state as one of the "Minutanti" or minor officials until 1901 when he was appointed substitute of the secretariat and also secretary of the cypher. As secretary to the secretary of state Cardinal Della Chiesa was brought into notable prominence throughout the Catholic hierarchy, but his position was not at that time of cardinal rank. On the accession of Pope Pius X. Monsignor Della Chiesa continued in the secretariat until December 18, 1907, when Pius X. gave him a noted promotion to the position of Archbishop of the Important See of Bologna.

For seven years he administered the See of Bologna with notable success. In May last Pope Pius X. named him among 15 members of the hierarchy to receive the red hat.

EDMONTON IS ASSURED OF SWEDEN'S SYMPATHY IN PRESENT GREAT WAR

For shouting, "To hell with the British flag," A. M. Isaacson, was arrested Wednesday afternoon on a charge laid by Alec Ileson, who, convinced that he should be punished, thought that he should be punished. The incident arose among a crowd of men who were gathered around one of the bulletin boards on Jasper avenue. Numerous arguments were in progress when Isaacson, in the heat of excitement, uttered the above exclamation. He was at once accosted by Ileson, who, enquired his nationality and the reason for the utterance, of which Isaacson refused to disclose. The police were immediately summoned and Isaacson was taken into custody.

Mr. Ileson explained the circumstances to the court and stated that, never, if he could help it, would anyone damn the British flag when he was present.

Isaacson expressed great contriteness when brought to trial, stating that he is a Norwegian and is an ardent sympathizer with the British and their allies. In fact he was going to take naturalization papers and would be willing to serve in the British army.

Marguerite Macleod dismissed the charges, warning him to be more careful, saying: "You had better lookout or some Irishman will be beating the head off you one of these days."

What the Theater Press Agents Say

OPENING OF "THE PLAYERS" EMPIRE THURSDAY NIGHT.

"The Players" will open their season at the Empire theatre today with their Wing Pinero's farcical comedy, "The Amazons," which had such a long run at the Court theatre, London, and a longer one at the Lyceum theatre, New York. The unconventional comedy of three pretty personae, daughters of a man, is a masterpiece of farce, and is a good type to Mrs. Reynolds, who has for Toronto tonight.

Mrs. H. M. Tor, and her mother, Mrs. Frost, who have been the guests of Mrs. Davidson at the coast all summer, have returned home. President Tor is still in the east and is expected home Saturday.

NEXT WEEK AT PATENTAGES—VARIETY OF ATTRACTIONS.

Satisfying at least will be the variety of the Empire theatre today with "The Amazons," which had such a long run at the Court theatre, London, and a longer one at the Lyceum theatre, New York. The unconventional comedy of three pretty personae, daughters of a man, is a masterpiece of farce, and is a good type to Mrs. Reynolds, who has for Toronto tonight.

The added feature for the week is the appearance of Isabel Fletcher and Charles Ayres and company in the dramatic sketch, entitled "The Game." The sketch is a very successful drama, and will be taken care of by the couple. Charles Ayres is known to Edmonton theatre goers. He has been in the city on several occasions during the last six years and is always afforded a warm welcome. The play which he finished a five years' stock engagement in Vancouver and they should add much success to their record by playing Edmonton.

The fun will be supplied by Hugo Latens, the Swedish dialect comedian. Latens' impersonations are well known on the Pacific coast. His greatest success has been in Sweden. The accuracy of his impersonation brings a smile but it is richly repaid by a burlesque relief. Swedish is the language sacred to the church are left severely alone. Mixed with his quaint humor is the most modern.

Leon and the Adeline sisters will make their appearance in a delightful pantomime. They have just returned from a tour of Europe which was shortened by the war, where they secured a tremendous hit.

Elwood and Snow will be seen in a novel vaudeville act which is filled with good comedy.

STRATHCONA TIES
SONS OF ENGLAND

Play Strenuous and Exciting Soccer Game in Charity Shield Competition.

Strathcona and the Sons of England played to a tie last evening in the Charity Shield soccer competition, at full time the score standing two apiece. Both teams were out to win and there was something doing all the time, both aggregations being eager to force the play. As a result the contest was somewhat rougher than usual. The Sons started out strong and after several hard attempts by Bradford and Campbell, Gregory carried the ball off the cross bar for the first counter. Strathcona soon evened matters, Emblin taking a nice pass from Todd and making a pretty goal.

The Sons took the lead again in the second period, Ockendon doing the trick and for a long time it looked as though they had the game safely stowed away. The Strathconas began to press hard but the Sons defence was strong and it was not until a few minutes before time went a few minutes again noticed, Emblin doing the necessary. In the short time left to play, Strathcona pressed hard but failed to break the tie.

Bradshaw's work stood out conspicuously for the Strathconas, while Gilliepie and Price worked well for the S. O. E.

The game will be replayed on Friday evening and the committee are desirous that it all future games start at 6:15 p.m., so that if necessary, an overtime period can be played before darkness intervenes.

The teams were:
S. O. E.—Dorset: Morgan and Gill; Aspin, Price, Canning; Bradford, Gregory, Ockendon, Ward and Campbell.
Strathcona—Maley; Meikle and Mantle; Lappin, Bradshaw and Halberton; Forester, Hudson, Emblin, Price and Todd.

Referee—W. Thompson.

DOUBLE TO REGINA

Brooks Almost Win Game—Berger Twirls Strong Game for Sox.

Regina, Sept. 3.—Regina won both games but the tail-enders put up a scrappy argument in each. They never looked like scoring against the Red Sox' good pitching in the afternoon, but put up a sterling defensive game behind Boice, so that the Red Sox had to work hard for their two runs.

Gloomy Loomis had one bad inning in the evening, two passes, three hits and an error being bunched for five runs. Up to that time Calgary was leading 3-1. They came back in the eighth with two more runs on doubles by Reynolds and Becker and a single by Grunt. Morse made a sensational catch of beams' liner in the ninth.

TENNIS TOURNAY PROVIDES
SOME VERY EXCITING GAMES

Competition is Narrowing Down—Gullion and A. E. Nash Given Hard Fight by Bolton and Steer in Men's Open Doubles—Good Games Today.

Tennis Tournay.
Some exciting games were witnessed in the Northern Alberta Tennis tournament on Wednesday. The weather was favorable for good tennis and the large number of spectators, who were on hand, were well rewarded for their pains in attending.

Play is getting closer to the finals and it is now an easier matter to arrive at some idea as to the probable identity of the finalists.

Nash and Mrs. Soars, last year champions had a hard fight to win from Gordon and Miss Wilson. The latter took the first set and only lost after a strenuous conflict. In the men's open doubles Gullion and Nash won out after a great contest with Bolton and Steer.

In the men's handicap singles Lee and Steer had an interesting game. Lee is showing fine form and ought to be counted on to make a strong fight for the finals.

Lee beat Steer 6-1, 7-5.

BEN BEY

YOU smoke-shy men—whose doctors say you've got too many nerves—hearken!

Ben Bey's in town. He's come to help you out—to hand a knock-out to that solemn-sorry stuff. You can smoke Ben Beys until you're matchless—and never wake a nerve from dreamless peace.

Not that there's anything weak or wishy-washy about Ben Bey—his punch is there, all right—only it's a hearty handshake and not a jolt on your solar plexus.

Wise ones who know tobaccos can tell you why—it's in the leaf, the blending and the way Ben Beys are made.

Pass Ben Bey to your particular M.D. He'll smoke it, and afterward revise that prescription to—"Ben Beys only—as many as you want."

Ben Bey costs ten cents (3 for 25c.)—most men who smoke him used to think that was too little for a good cigar.

Says Ben Bey:—
"Don't take life too seriously—you will never get out of it alive!"

HOW EUROPEAN WAR LOST A SETTLER TO ALBERTA

When Wolfgang Hubrock retired lieutenant of the German army, living at Hannover, Germany, and later correspondence with Edmonton's industrial commissioner, George M. And this case in particular was working itself up to the deciding point, and Mr. Hall mailed a fine group of photographs depicting country life in Alberta, to the German lieutenant. But Wolfgang Hubrock never got the pictures, for although they were mailed and the pictures, much marked with various post office stamps and other writing, and the letters and literature relating to same, for this is the work that George M.
